## Subject Dynamics

# A postdoctoral fellow from our hospital was selected into the "Postdoctoral International Exchange Program Introduction Project"

Release time: 2022-11-22

font size:

In November 2022, the Office of the National Postdoctoral Management Committee announced the selection results of the 2022 Postdoctoral International Exchange and Introduction Project (the second batch). Ma Hongyang, a postdoctoral fellow of our hospital, was selected. This is the fourth postdoctoral fellow of our hospital who has returned from studying abroad to receive this funding.

In recent years, through the postdoctoral system, our school has increased the introduction of doctoral graduates from universities at home and abroad, and has continuously attracted doctors with good educational background and academic potential to join. Focus on cultivating a group of young talents with international vision and innovation ability, and continuously improve scientific research innovation ability and internationalization level.

The 2022 Postdoctoral International Exchange Program Introduction Project Winner——Introduction to Dr. Ma Hongyang

➤👤👤 Hongyang, male, 31 years old, graduated from the Ninth People's Hospital Affiliated to Shanghai Jiaotong University School of Medicine with a master's degree in 2018. His supervisor is Professor Zhang Shilei, his associate supervisors are Professor Shen Guofang,

Professor Fang Bing and Professor Wang Xudong. Obtained the National Construction High-Level University Public Postgraduate Project Funding, and studied for a doctorate in stomatology at KU Leuven School of Medicine in Belgium. During the doctoral period, he studied under the chairman of the Belgian Digital Dentistry Association, Professor Reinhilde Jacobs and the academician of the Royal Academy of Medicine of Belgium, Constantinus Politis professor. In August 2022, he entered the post-doctoral mobile station of our hospital. The co-supervisors (group) are Professor Deng Xuliang and Professor Tang Zhihui. They are mainly engaged in the clinical research of digital stomatology technology. Published more than 10 Chinese and English works, among which the first author published 6 papers included in SCI journals, participated in international conferences and published 3 conference papers, participated in 3 National Natural Science Foundation of China, participated in 9 patents, and 1 software copyright. He is currently a member of the German Association for Implantology (DGI), a member of the European Association of Osseointegration (EAO), and a member of the International Digital Dentistry Society (DDS), and has been invited to be a reviewer for well-known journals such as Acta Biomaterialia, Orthodontics & Craniofacial Research, and Oral Radiology. In November 2022, the "Postdoctoral International Exchange and Introduction Project" will be approved.

Background introduction: "Postdoctoral International Exchange Program" was established by the Ministry of Human Resources and Social Security and the National Postdoctoral Management Committee in 2012, and set up sending projects, introduction projects and academic exchange projects. The introduction project is to subsidize excellent doctors (including Chinese and foreign nationals) who have obtained a doctorate abroad to carry out postdoctoral research work in China for a period of two years. The Office of the National Postdoctoral Management Committee subsidizes 200,000 yuan per person per year, and the unit supports 100,000 yuan per person per year.
